Senior Python Developer

Description

EIGHT is a growing digital agency with a presence in **France, Switzerland, Morocco, Spain, and Vietnam**. We operate across diverse markets to deliver impactful solutions. We support small, medium, and large companies to improve their digital strategy and increase their visibility by optimizing their internal processes and securing their information systems.

EIGHT values creativity, curiosity, and ambition to drive digital innovation. Join us and become part of a dynamic and multicultural environment where fresh ideas are celebrated and empowered to achieve results.

Responsibilities

As part of our growth, We are seeking a **Senior Python Developer** to join our technical team and contribute to a variety of projects, including ERP solutions, web applications, and custom development.

Key Responsibilities:

- Develop, test, and maintain Python-based applications and solutions
- Design and implement robust back-end systems and APIs
- Collaborate with cross-functional teams (project managers, designers, and business analysts)
- Optimize and maintain existing applications for performance and scalability
- Participate in code reviews and provide mentorship to junior developers
- Create technical documentation and provide user support when necessary

Qualifications

- Strong proficiency in Python with 5+ years of development experience
- Experience with web frameworks (e.g., Django, Flask)
- Familiarity with relational databases (e.g., PostgreSQL, MySQL)
- Experience with version control tools (e.g., Git)
- Good understanding of API development and integration
- Proficiency in French and English (written and spoken)
- Ability to work independently and as part of a distributed team

Experience

- Experience with Odoo development (custom modules, integrations)
